Dear Mr. Winslow:

In response to your letter of 10 January 1966 in which you requested information concerning magnetic tape cleaning and certification, we are not in a position to provide you with specific answers to the questions you raise. When problems are encountered which affect the utilization of a computer system, we would seek advice from the manufacturer or the vendor for solution.

For whatever assistance it may be, I am attaching a short list of references pertaining to magnetic tape maintenance and rehabilitation which has been compiled by our specialists in this area.

Sincerely,

/s/ Richard Helms
